

# Cell Phone Safe Pouch Process

## Bloom Trail High School 2025-26

Planning Committee Suggested Process for Classroom Teachers

Each instructional space will have blue pouches for each student as well as one magnet. (Teachers are responsible for having and securing their magnets as well as maintaining the number of pouches.)

1. Pouches are numbered for you. (The same number can be used with the Chromebook.)
2. Teachers may opt to have a student assistant in charge of handing out the pouches and for unlocking the pouches for their row at the end of class.
3. Place a pouch on every desk and it stays on the desk all day (Can go under the desk in the basket when not in use).
4. Have students put their phone in the pouch when class begins.
5. Make sure the pouches are back on the desk before students leave the room.

***Deans will follow up with students who are not cooperative.***

## Bloom Trail High School 2025-26

### *Information on Cell Phone Safe Pouch Use*

*For Parents and Students:*

*To foster an optimal learning environment, it is essential that students remain focused and free from distractions. The use of cell phone safe pouches is intended to maximize instructional time by minimizing interruptions caused by cell phone usage. Each classroom will receive cell phone safe pouches to securely store students' phones during class. The safe cell phone pouches will be kept by the student on their own desks. These pouches are designed to lock and can only be opened by the teacher key.*

*Students are still allowed to access their phones during passing periods and lunchtime. Students who do not comply with this policy will be referred to the dean for further disciplinary action, which may include contacting parents and imposing additional restrictions on cell phone access during the school day.*

### *Información sobre el uso de la funda de seguridad para teléfonos celulares*

*Para los padres y estudiantes:*

*Para fomentar un entorno de aprendizaje óptimo, es esencial que los estudiantes permanezcan concentrados y libres de distracciones. El uso de fundas de seguridad para teléfonos celulares está destinado a maximizar el tiempo de instrucción al minimizar las interrupciones causadas por el uso del teléfono celular. Cada aula recibirá fundas de seguridad para teléfonos celulares para guardar de forma segura los teléfonos de los estudiantes durante la clase. Las fundas seguras para teléfonos celulares serán guardadas por el estudiante en sus propios escritorios. Estas bolsas están diseñadas para bloquearse y solo pueden ser abiertas **por llave del profesor**.*

*Los estudiantes **todavía** tendrán acceso a sus teléfonos durante los períodos de paso y la hora del almuerzo. Los estudiantes que no cumplan con esta política serán referidos al decano para tomar medidas disciplinarias adicionales, que pueden incluir contactar a los padres e imponer restricciones adicionales al acceso a teléfonos celulares durante el día escolar.*
